Web Development Price Guide 2009

Websites

Websites start from £200; this is a rough guideline to our prices:

1-4 pages £200

5-8 pages £235

9-14 pages £260

For websites over 14 pages a quotation will be given.

All of the above packages include a limited amount of multimedia being used on the site and we will happily include simple photo editing. For a large amount of multimedia or photo editing additional costs will be charged:

Extensive photo editing will be judged on individual merit but the common charge will be £10

Website Features:

Videos

Pre edited videos £5

A video that requires editing £60

A video for us to film and edit £100

If you require us to film then the £100 covers multiple videos as we see fit.

Website maintenance

Once the site is completed we aim to make it fully transferable to the customer but where this is not possible if there is anything that needs changing or updating we will simply charge per hour. We have very cheap rates!

Please be aware that these prices are a rough guide and it is recommended that you request a quote to gain a more exact price.
